

K-love translators 94.7, 94.9 and 105.3 in the Memphis Area serve me on a daily basis by playing positive and encouraging music that matches my worldview. If these translators were replaced by LPFM stations, many dedicated listeners would be disconnected with a life impacting ministry / service. Keeping K-love translators on the air benefits the entire public by offering wholesome clean music that maintains a message that goes beyond having a BAD effect or No effect to an UPLIFTING and GOOD affect and also allows for national communication of information among their listening demographic audience. thank you for your time and consideration.
